

Vježba 17: CSS poveznice, liste i tablice

Izradili: Josip Sremić, Marko Sesar 3.C

PRIPREMA ZA VJEŽBU:

1. Što su poveznice? Što sve može biti poveznica na mrežnoj stranici?

Poveznice su neki tekst tj. link (veza) koji nas pritiskom na njega odvede na neku drugu stranicu ili lokaciju. To mogu biti tekst, slike, oblici, video...

2. Koje su tri vrste lista definirane HTML-om? Kada se koja od njih koristi?

HTML-om su definirane uređene, neuređene i opisne liste. Uređene liste se koriste kad želimo nabrojiti nešto što ima neki redoslijed ili redni broj, neuređene kad nabrajamo nešto što nema neki posebni redoslijed (popis za kupnju, sastojke...), a opisne kad želimo opisati sadržaj tablica.

IZVOĐENJE VJEŽBE

1.CSS poveznice

Completed 22 of 138 Exercises:

- CSS Border ✓
- CSS Margin ✓
- CSS Padding ✓
- CSS Height/Width ✓
- CSS Box Model
- CSS Outline
- CSS Text
- CSS Font
- CSS Links ✓

✓ Exercise 1

2.CSS liste

Exercise:

Marko Sesar

A mobile application navigation sidebar with a grey header containing a home icon, a trash icon, and a close icon. Below the header are two buttons: a green 'Sign Up' button and a light green 'Log in' button. A grey bar indicates 'Completed 26 of 138 Exercises:'. A dark grey menu lists 'CSS Text', 'CSS Font', 'CSS Links', and 'CSS Lists', with the last two having white checkmarks. Below the menu is a list of four exercises, each with a green checkmark; 'Exercise 4' is highlighted with a green background. At the bottom is a link: 'Go to CSS Lists Tutorial'.
